IT INFORMATION:

For the 2026 school year there will be no sessions held with parents and no requirement for parents to book a session to have their child's laptop/device configured. Instead, parents should keep an eye out for an email with details about how to set it up at home. It is important, however, to make sure the device is activated and working.

For parents who are looking to purchase a new device for 2026, please take the time to consider the options available through the [LWT Purchase Portal](#). Though you may still choose to purchase from any retailer, the devices available for purchase through LWT, cover a range of prices, and have all been reviewed and considered suitable for use at CHS.

When making a decision, please consider the significance of the included 3-year warranty and on-site support, as well as access to a loan device which is only available with purchases made through LWT. Lenovo have released a new 3-year education warranty that covers 3 claims over 3 years for impact damage, liquid damage, and electrical surges, previously only covered by accidental damage insurance. For purchases through LWT, please refer to LWT portal for estimated shipping and delivery information.

If purchasing outside the portal, please also consider if the device requires insurance or check with your home insurer if the device is covered at school. Unfortunately, accidents happen and can be expensive to repair.

When preparing for school consider the case you will keep your device in. Hard sided, well-padded cases offer better protection to your device than a slipcover style case. A sturdy case will keep your device safe when moving between lessons or traveling to and from school.

Please Note that since 2021, Apple Devices (including MacBook) are not acceptable as a BYOT device and will not be connected to the school network.

For new device setup information please select the following link: [Setup Information for New BYOT Devices](#)

For current and returning device holiday maintenance please select the following link: [Maintenance Information for Existing BYOT Devices](#)

For all IT questions and queries IT staff can be contacted directly by emailing clarehs.ictadmin@schools.sa.edu.au.

We wish you all a fantastic holiday break with your families and look forward to working with you all in 2026.

Kind regards,

Kylie Alozie
